SEIZE BITS (16B)

Whitepaper

16B VISION

Introduction

1 : SeizeBits is a crypto engineering organisation focused on blockchain technology products and audits solutions,
Seizebits aims work on web 3.0 builder based on blockchain, which facilitates decentralized websites and blogs development.

2 : 16B token [16B] represents the power of the holders in our system, it's the official currency for all community SeizeBits [16B] products and systems.

3 : Seize Bits Project is a term for an online ecosystem that cuts out the big middlemen on the Internet. Platforms on Web3 are not owned by central gatekeepers and you wouldn't navigate the Internet through search engines such as Google. It uses blockchain, the same system used by cryptocurrencies and nonfungible tokens [NFTs].

Alternative Banking

A decentralized financial [16B] system democratizes finance and gives the unbanked access to services that a traditional financial institution would deny based on existing standards.

SeizeBits DAPP & DEX

In the future, we will build a decentralized swap [DAPP] and exchange [DEX], where **16B Token** will be used as one of the key base assets as well as gas to be spent.

[16B] Benefits

16B Token is not only limited for Buy / Sell / Hold, But also has a real use case of payment system utility globally.

The Smart Contract has been renounced so that no one can change its functions. In other words, nobody controls or owns 16b Token.

Conclusion

There are many risks involved in other cryptocurrencies. We understand this and have the skills, and leadership to overcome them.

16B Project aims to make decentralized finance completely secure and to provide the most secure payment system to multinational companies and organizations, including investors, around the world, allowing them to easily and securely transact digital transactions using blockchain technology and be able to own their valuable assets.

SeizeBits is a fully Decentralized Cryptocurrency based on the goal that it will be the safest Global Digital Currency in the world and will be used worldwide as a payment method. A Digital Currency that will not be owned or controlled by any individual, organization, entity, or group, and SeizeBits has been launched as the world's largest Digital Currency owned by `You´.
